LIMITED BATTERY / SERVICE WARRANTY & CUSTOMER TERMS

1. Installed or used batteries are non-refundable. Suspected defective batteries must be tested before warranty consideration.
2. If a battery is confirmed defective and covered by the supplier/manufacture warranty, the remedy is replacement only unless required otherwise by law.
3. Battery warranty length and coverage are the supplier/manufacture terms shown above; warranty assistance by Secret Fix does not extend those terms.
4. Secret Fix installation labor is covered for 30 days / 1,000 miles, whichever comes first, for battery-installation workmanship only unless otherwise stated on this invoice.
5. Core charges are refundable only when an acceptable core is returned within the applicable return period. Damaged or non-qualifying cores may be rejected.
6. Warranty does not cover misuse, neglect, improper charging/jump-starting, collision/physical damage, unauthorized modification, or customer-supplied installation issues.
7. Customer must stop driving/using the vehicle if smoke, overheating, severe electrical odor, loose terminals, or charging-system warnings occur and request inspection.
8. Diagnostic/testing fees, mobile service fees, towing, and unrelated repairs are not automatically covered by a battery replacement warranty.
9. Proof of purchase/invoice is required for warranty service. Customer authorizes the work and confirms the vehicle/battery information above is correct.
